Please list the following information as clearly and fully as possible. Please use capital letters.

1. Main health issues and problems now (if relevant, please mark on separate sketch or photo of your animal):

2. Main conditions or environment your animal spends a lot of time in. And levels of exercise/fitness:

3. Background information, past illnesses or operations, and perhaps treatments that have or have not helped:

4. Your thoughts on possible factors in the problems your animal has been having. Many people have valuable 'hunches':

5. Medication and supplements. Please list any medication your animal is on and if you find it effective or not. Also it would help to include a sample (e.g. tablet) of each sort, including natural supplements. We will test for effectiveness, tolerance and make sure they are compatible with any remedies we may recommend.

I enclose:

- Pet hair sample
- Samples of my animal's medication included - taped to a separate sheet, named and identified against which condition they are treating.
- Samples of my animal's foods included.
- A photocopy of a photo/diagram of my pet showing the position of any conditions mentioned that need testing.
